

Company Info

The Junior University Mentoring Program (JUMP) is a division of EduTech Support Services, Inc.

Structured to meet the extraordinary technological challenges of the 21st century, EduTech Support Services, Inc. sets the quality standard for remedial consultation services, system analysis, network connectivity, end-user training and Help Desk support.

Achievement of success in the emerging global economy requires both corporations and educational institutions to streamline their operations while controlling the costs associated with the implementation of the latest technology. EduTech Support Services, Inc. can assist you in meeting these goals by first conducting a thorough analysis of your present systems, then providing upgrade recommendations and continuing support services, including end-user training, technical documentation and Help Desk functions.

Our technical expertise spans several platforms to ensure that you can always expect consistent and unsurpassed levels of commitment and service from EduTech Support Services, Inc.

About JUMP

The **Junior University Mentoring Program (JUMP)** is revolutionizing the way two year and four year educational institutions will mentor and track the educational progress for student/athletes.

The goal of the **Junior University Mentoring Program (JUMP)** is to become the industry standard of excellence.

JUMP provides a centralized point of contact that will enhance every student/athlete Mentoring Program offered by two and four year learning institutions. **JUMP** is a leading web-based solutions program created to help manage post secondary information relating to the successful progress of student/athletes. They say, "It takes a village to raise a child." Likewise it takes a team effort to ensure that a student/athlete **JUMP**'s to the next level of educational success. **JUMP** provides two and four year schools with a greater chance for success by providing a number of important advantages.

What is it?

JUMPFOR4.com has been developed to provide student athletes with the best support that post secondary education has to offer: its people. By providing administrators, mentors/tutors, teachers, coaches and student/athletes with a centralized point of contact, the student/athlete is assured to have the most successful educational experience possible.

The goal of the **Junior University Mentoring Program** is to further the academic and athletic goals of students beyond that of a two-year educational institution.

Features and Benefits

- Enables 24/7 access from any computer connected to the web, with real-time sharing of student/athlete information between authorized administrators, teachers, mentors/tutors, coaches and student/athletes from school or at home
- **JUMP** is a true web-based solution
- Real time content updates and site modifications driven by the needs of our clients
- High-level encryption security to ensure complete confidentiality of the educational institution and student body
- A top educational services provider with more than a decade of experience has created **JUMP** specifically for the promotion of the success of the student/athlete and to ensure the high retention and graduation rates of two year and four year learning institutions
- Help desk support to provide our customers with the quickest turn around time possible. Our goal is 100% customer satisfaction
- **JUMP** is a tool that will provide learning institutions with the opportunity to increase student retention and enrollment

ADMINISTRATOR MODULE

The Administrator Module provides any authorized administrator, such as an Athletic Director, with an eagle eye perspective of the entire Junior University Mentoring Program. An authorized administrator is provided with access that ensures complete accountability of the mentoring process. An athletic director for example is able to view measurable results by sport, coach, mentor and student athlete. Administrators are able to assign mentors and log in identification as well as passwords to provide the Highest level of security.

TEACHERS MODULE

The Teacher Module provides faculty with individualized reports and session notes between mentor and faculty members relating to student/athletes.

COACHES MODULE

The Coaches Module provides sport specific information broken down by team, position, and individual student/athlete. The coaches module also provides coaches with the ability to generate reports that produce a complete student athlete profile to be used to promote the student athlete in our **JUMPFOR4RECRUIT** module

MENTOR MODULE

The Mentor Module provides appointed individuals (student advisors, tutors, etc.) with a completely integrated set of web based mentoring tools. The authorized mentor will have seamless communication with administration, teachers, coaches and student/athletes from any where in the world.

STUDENT MODULE

The Student Module provides the student/athlete with access to the total support of the Junior University Mentoring Program. **JUMP** provides each student/athlete with a portfolio called "Jump4success". "Jump4success" is a plan for academic as well as athletic success. **JUMP** will increase a student/athletes accountability for individual academic success by providing a big picture concept represented in the form of a student profile.
